

## Ageing Well NSC SNAP Roadshow: Christchurch

Dear All,

Please join us for our fifth Ageing Well National Science Challenge (AWNSC) SNAP Roadshow on **8<sup>th</sup> June 2017**.

These SNAP (Stakeholders Network Action-Research Participation) Roadshows will focus on research “impact”. To research funders and the government, impact means maximizing the effect academic research has on health at an individual, community and population level. Impact may well mean different things to different people/groups and that is what we want to explore with you.

We invite you to join us for a light lunch, followed by:

- A brief update about the AWNSC research by Challenge Director Prof David Baxter.
- An interactive session exploring what impact means to you and how we make sure that the research AWNSC is undertaking has a positive impact on society and health.

**This event is free.**

**Christchurch (8<sup>th</sup> June):**

**Venue: Age Concern Canterbury (24 Main North Road, Papanui)**

**Time: 12:00pm-3:00pm**

We hope to see you there. Due to limited seating availability, and for catering purposes, please RSVP to Dean by **Thursday 1<sup>st</sup> June**.
